ABOUT US

At  we specialize in creating, maintaining and restoring (should there be a need) the relationships between talent and organizations, ensuring that either party gets value that is to their hearts desire.

We understand the importance of having a team designed to conquer. Every player matters.

We also understand that great players, if placed in appropriate environments, will deliver beyond expectations.

BRANCHES

INV Premier

Team building for companies or company departments seeking to refresh or recharge. This arm of INVIGO will charge for this service as existing companies are the primary target market.

It is extremely important that under INV Premier world renowned coaches be hired. This branch will also need to be taken seriously as the client is seldom a single person or a group of employees but companies. If done well, this could be a high earner.

INV WELFARE

This will target individuals trying to gain their careers back.

This will be free, but however, not be a free for all.

Incumbents will be carefully selected. The following criteria will be considered:

If they lost a job, how did they lose it? This may include checking on employment history

Have they engaged in self improvement ever since.

Credit score

Criminal record etc.

OUR PILLARS
