# FOR EMPLOYEES

## **Company Events**

Personalised gifts , especially when they are of good quality and well-personalised, create a feeling of being valued by employers and foster a sense of belonging and connection to the team

## **Special Recognition**

Rewarding instances where an employee saved the day or went the extra mile to help a business goal or a colleague.

## FOR CLIENTS

Clients too can benefit from a well-timed gift. It can let them know their business is valued, encourage them to continue their service or become brand evangelists, and has the power to bring your company back to top-of-mind in cases where it's been a while since the last interaction.

## FOR PROSPECTS

Gifting can motivate those who are not yet your customers to become one. In fact, 80% of consumers say they are more likely to do business with a company if it offers personalized experiences. Sending the right gift at the right time can be the motivator for prospects to take a desired action, such as completing a purchase, signing up for a service, or making a discovery call.
